

BioGuard® air/water & suction valves

Improving infection prevention practices...

The single-use BioGuard® air/water & suction valves offer an alternative option to manual cleaning and reprocessing.

The BioGuard® air/water & suction valves...

- Minimize the risk of cross-contamination between patients
- Provide consistent performance – use a new kit for each procedure
- Help eliminate tracking concerns in an infection outbreak*
- Support adherence to industry guidelines

For more information on the BioGuard® air/water & suction valves, contact US Endoscopy today.
